

## CIVIL ENGINEERING TECHNICIAN

---

**Westbrook Associated Engineers, Inc.** is an innovative civil engineering firm serving clients throughout the United States. Since our founding in 1974, we have completed thousands of quality engineering projects, ranging from construction inspections to forensic investigations to award-winning highway and bridge designs.

### **Position(s):**

We are currently seeking one (1) full-time Civil Engineering Technician.

### **Job Description / Responsibilities:**

- Take direction from engineers to assist with design support related tasks while learning the skills necessary to assist in carrying out successful projects.
- Perform construction materials testing (aggregates, asphalt, concrete) in a laboratory environment.
- Assist with civil and structural design and drafting.
- Work closely and assist on transportation projects including local bridge, road, highway, site development, construction inspection and other various civil projects.

### **Education / Qualification Requirements:**

- Qualified candidate will have a Technical Degree in Civil Engineering.
- Possess strong computer literacy and excellent written and oral communication skills.
- Be highly organized, detail oriented, proficient and able to prioritize tasks.
- Proficient in AutoCAD, Civil3D, MS Office and Adobe
- Highway Technician Certification Program certifications a plus.

### **Company / Employee Benefits:**

We offer a competitive compensation and benefit package, including:

- Paid Time Off
- Health, dental and vision coverage
- Short term, long term, AD&D, life and voluntary life insurance
- Flex spending account
- 401K Plan
- Bonus eligibility
- Education Assistance Program
- Professional Development Assistance
- Computer Purchase Program
- Endless opportunities for career growth
